

Why Your Cat’s Dental Health Matters

Published February 10, 2026

It’s important to pay attention to your cat’s teeth and gums. With the new year in full swing, it’s the perfect time to establish a new dental care routine for your cat.

A Daily Dental Routine

Oral health issues are common in adult cats. That’s why it’s important stay on top of your cat’s dental health by starting a daily dental care routine.

It's never too late to start adding dental care to your daily list of to-dos for your pet.

How to Stay on Top of Your Cat’s Dental Health

Be consistent and get into a teeth cleaning routine. Help control tartar accumulation on cat’s teeth by feeding them dry kibble and dental treats, like Feline GREENIES dental treats, each day. The crunchy texture helps scrub teeth with each bite. Plus, a visit to the vet for a professional cleaning is always a good idea.

Do Feline GREENIES™ Dental Treats Really Help Clean Cat Teeth?

Feline GREENIES dental treats are designed to deliver essential oral care benefits and a taste cat's love. Their crunchy texture is designed to reduce tartar by enabling cat's teeth to sink deeply into the treat—it's all in the way they chomp on them! As your cat chews, the texture of the dental treat helps scrub teeth clean. GREENIES™ Dental Treats also come in a variety of delicious flavors cats love.

This year, get into the habit of establishing a healthy dental care routine for your cat.

4 Ways for You and Your Dog to Fall in Love with Fall

This summer, you and your dog probably enjoyed countless hours playing fetch outside and soaking up the sun. While the leaves may be changing color and the air may be cooler, that doesn't mean the end of outdoor fun for the year. Fall is a wonderful time for you and your dog to get out of the house and enjoy the crisp,

Caring for Your Senior Dog as They Age

While we wish our dogs could be by our sides for our whole lives, we know that dogs age at a faster rate than humans. Most dogs are considered "senior" once they reach about seven or eight years old, while larger breeds tend to be considered senior around six years old. Caring for an elderly dog means keeping an eye ou

Caring for your Pet’s Health with GREENIES™ Treats

At the GREENIES™ Brand, we believe treats should not just taste good, but they should do good. Here are few things to keep in mind when buying a dental treat or chew. Try to avoid hard chews, bones or rawhides that might damage teeth. Look for a dental dog chew that is flexible, easy to chew and digestible like GREENIE
